

Katie's Story

May, 2009

Katie started in the Juvenile Drug Court program in September 2007. Through this program, she began attending the daily, intensive outpatient adolescent substance abuse program, Wolfe Center, in Napa. Katie has responded successfully to treatment, and her Wolfe Center counselor collaborates regularly with the Drug Court team and her Juvenile Probation Officer. She has regularly attended Drug Court and the Wolfe Center program for the last 18 months and is currently on track to graduate from the Wolfe Center program and Drug Court in the near future. Katie has also made great strides in meeting her future education and employment goals, and she recently obtained her high school degree and is attending Napa Valley College on a part-time basis while pursuing her dream job as a life guard. She has met her goal of successfully passing the Red Cross certification, and has been offered summer employment with the parks and recreation department.

¹ *Wolfe Center is Napa County's only substance abuse prevention & treatment program dedicated exclusively to helping teens.*
