- ❖ This report fulfills the Interagency Agreement (IA) between the Department of Alcohol and Drug Programs (ADP) and the Department of Corrections and Rehabilitation (CDCR), to submit a quarterly report on the Parolee Services Network (PSN) project which ADP administers for CDCR.
- ❖ The PSN report provides information about AOD treatment clients who are parolees in the PSN project and is broken down into detailed client characteristics and admission counts for each quarter of the fiscal year and as cumulative to date.
- ❖ With the exception of the "Unique Clients Served" category, the data are based on service counts ("N") and not unique clients. This may result in multiple counts for the same client if they had more than one AOD admission or discharge during the reporting period.
- ❖ Use of the various report filters may yield small cell sizes which will undermine the report's usefulness since small changes in frequency produce large changes in percentages. Smaller cell sizes also increase the potential risk of communicating protected health information (PHI).

*****Important*****

Protect all CalOMS reports as PHI. At a minimum, such protections must comply with the privacy and security requirements defined in the rules of the Health Insurance Portability and Accountability Act (HIPAA) and Confidentiality of Alcohol and Drug Abuse Patient Records (42 CFR Part 2).
