
Parolee Services Network: *Vision Statement*

OCJC's Parolee Services Network work group exists to:

1. **Enhance communication** between and among stakeholder groups; and
2. **Foster cooperative working relationships** throughout the diverse stakeholder community.

Our primary stakeholder groups are:

- community treatment providers;
- California Department of Corrections and Rehabilitation (staff of the Division of Addiction & Recovery Services and the Division of Adult Parole Operations)
- ADP staff;
- county staff; and
- parolees

We also conduct site visits, participate in monthly and quarterly provider meetings, and use technology to listen to the concerns of county staff, providers, Parole Services and DARS to facilitate treatment system improvements.

Our goals are to:

- improve parolee outcomes;
- increase public safety; and
- reduce prison costs
