

Release Notice: SACPA Reporting Information System Version 3.2

Release Date: August 7, 2002

On August 7, 2002, the California Department of Alcohol and Drug Programs (ADP) will install SACPA Reporting Information System (SRIS) Version 3.2. The changes will be transparent to the system users other than an update to the ADP logo.

In order to provide internal ADP users easy access to SACPA data for research and analysis, new tables have been defined and will be populated on a scheduled basis. These tables will be accessed by ADP staff using MS Access.

For questions on how to use or access the SACPA Reporting Information System, please call the ADP Automation Help Desk at (877) 517-3329 or email SACPA@adp.state.ca.us.
