

Treatment Admissions, Client Characteristics

California Outcomes Measurement System

Report Period based on: Admission Date

Date Created: 8/27/2007 1:08:48 PM

Report Period: 1/1/2006 to 12/31/2006

Service Modality: All

Special Population: All

Primary Drug: All

Age at Admission from: 5 – 105

Race: All

Ethnicity: All

Primary Group:

C/DCP: Statewide

Provider: C/DCP Wide

- ❖ This report provides information about AOD treatment client characteristics in the following categories: employment status, education level, legal status, special needs, HIV/AIDS test status, and communicable disease diagnosis.
- ❖ The table regarding AOD clients' HIV/AIDS test status indicates whether clients were tested for HIV/AIDS and, if tested, whether they obtained the test results. Note: CalOMS does not collect nor does this report address the results of any HIV/AIDS tests that may have been taken.
- ❖ The data were collected during client admissions to AOD treatment that occurred during the selected reporting period and is based on service counts ("N") and not unique clients. This may result in multiple counts for the same client if they had more than one treatment admission during the selected reporting period.
- ❖ Use of the various report filters may yield small cell sizes which will undermine the report's usefulness since small changes in frequency produce large changes in percentages. Smaller cell sizes also increase the potential risk of

Important

Protect all CalOMS reports as PHI. At a minimum, such protections must comply with the privacy and security requirements defined in the rules of the Health Insurance Portability and Accountability Act (HIPAA) and Confidentiality of Alcohol and Drug Abuse Patient Records (42 CFR Part 2).

Notes:

(1) - As is done for the other categories in the "Special Needs" table, the percent (%) value for 'Pregnant at Admission' is calculated using the total number of admissions during the reporting period and not just female admissions.
