

Changes During Treatment, Employment/Education

California Outcomes Measurement System

Report Period based on: Discharge Date

Date Created: 8/27/2007 1:15:03 PM

Report Period: 1/1/2006 to 12/31/2006

Service Modality: All

Special Population: All

Primary Drug: All

Treatment Frame: Service (Admission to Discharge)

Age at Admission from: 5 – 105

Race: All

Ethnicity: All

Primary Group:

C/DCP: Statewide

Provider: C/DCP Wide

- ❖ This report provides information about the changes clients experienced in their employment or educational/job training status between their admission to and discharge from AOD treatment. This includes summary and detailed client characteristics tables for employed and unemployed clients as well as those in school or undergoing job training. Note: If you selected treatment frame "Update (Admission to Last Annual Update)", substitute "Annual Update" for "Discharge" in this report description.
- ❖ The data for this report were drawn from the records of all clients who had a completed "AOD treatment service set" (a matching admission and discharge—excluding administrative discharges) that occurred during the selected reporting period and had valid data in the relevant fields at both admission and discharge. This report excludes those client records that had alternative data values (e.g., 999xx codes) or were null (e.g., youth or detox admissions/discharges, CADDs-converted data, etc.) in the relevant fields, as well as records for clients under 16 years of age for the employment-related tables.
- ❖ The data are based on service counts ("N") at two distinct points in time—admission to and discharge from treatment. The data do not reflect the experience of unique clients across the treatment service set and, therefore, the "Percent Change" represents the changes in proportion in the overall data pool as collected at each of these "snapshots in time." This may result in multiple counts for the same client if they had more than one matching admission and discharge service set during the reporting period. Note: In those instances where the count at Admission is zero (0), the calculation of Percent Change is mathematically undefined and is currently shown as "0%" in this report.
- ❖ Use of the various report filters may yield small cell sizes which will undermine the report's usefulness since small changes in frequency produce large changes in percentages. Smaller cell sizes also increase the potential risk of

*****Important*****

Protect all CalOMS reports as PHI. At a minimum, such protections must comply with the privacy and security requirements defined in the rules of the Health Insurance Portability and Accountability Act (HIPAA) and Confidentiality of Alcohol and Drug Abuse Patient Records (42 CFR Part 2).

Notes:

(1) - For this report, the following tables report data for clients identified as "employed" if they are working "full time" (35 or more hours per week) or "part-time" (fewer than 35 hours per week).

(2) - Client counts may overlap between the three Employment/Education categories shown.

(3) - This table reports data for clients identified as unemployed, in the labor pool, and either seeking or not seeking employment. It does not include data on clients not in the labor pool.
