

# Changes During Treatment, Living Arrangement

## California Outcomes Measurement System

Report Period based on: Discharge Date

Date Created: 8/27/2007 1:15:39 PM

Report Period: 1/1/2006 to 12/31/2006

Service Modality: All

Special Population: All

Primary Drug: All

Treatment Frame: Service (Admission to Discharge)

Age at Admission from: 5 – 105

Race: All

Ethnicity: All

Primary Group:

C/DCP: Statewide

Provider: C/DCP Wide

- ❖ This report provides information about the changes clients experienced in the status of their living arrangements between their admission to and discharge from AOD treatment. This includes a summary table and a detailed client characteristics table for clients who were homeless. Note: If you selected treatment frame "Update (Admission to Last Annual Update)", substitute "Annual Update" for "Discharge" in this report description.
- ❖ The data for this report were drawn from the records of all clients who had a completed "AOD treatment service set" (a matching admission and discharge—excluding administrative discharges) that occurred during the selected reporting period and had valid data in the relevant fields at both admission and discharge. This report excludes those client records that had alternative data values (e.g., 999xx codes) or were null (e.g., youth or detox admissions/discharges, CADDs-converted data, etc.) in the relevant fields.
- ❖ The data are based on service counts ("N") at two distinct points in time—admission to and discharge from treatment. The data do not reflect the experience of unique clients across the treatment service set and, therefore, the "Percent Change" represents the change in proportion in the overall data pool as collected at each of these "snapshots in time." This may result in multiple counts for the same client if they had more than one matching admission and discharge service set during the reporting period. Note: In those instances where the count at Admission is zero (0), the calculation of Percent Change is mathematically undefined and is currently shown as "0%" in this report.
- ❖ Use of the various report filters may yield small cell sizes which will undermine the report's usefulness since small changes in frequency produce large changes in percentages. Smaller cell sizes also increase the potential risk of communicating protected health information (PHI).

### \*\*\*Important\*\*\*

Protect all CalOMS reports as PHI. At a minimum, such protections must comply with the privacy and security requirements defined in the rules of the Health Insurance Portability and Accountability Act (HIPAA) and Confidentiality of Alcohol and Drug Abuse Patient Records (42 CFR Part 2).
