- ❖ This report provides information about the parental status of AOD treatment clients, including clients with minor children, parental rights and child custody, and the unique number of minor children of AOD clients.
- ❖ The data were collected during client admissions to AOD treatment that occurred during the selected reporting period and is based on service counts ("N") and not unique clients (except where noted in the final table—Actual Number of Minor Children of Unique Clients). This may result in multiple counts for the same client if they had more than one treatment admission during the selected reporting period.
- ❖ Use of the various report filters may yield small cell sizes which will undermine the report's usefulness since small changes in frequency produce large changes in percentages. Smaller cell sizes also increase the potential risk of communicating protected health information (PHI).

Important

Protect all CalOMS reports as PHI. At a minimum, such protections must comply with the privacy and security requirements defined in the rules of the Health Insurance Portability and Accountability Act (HIPAA) and Confidentiality of Alcohol and Drug Abuse Patient Records (42 CFR Part 2).

Notes:

(1) - This report includes the total number of clients' minor children. It does not indicate the number of minor children in treatment or accompanying the parent/client to treatment.
