1.0 **GENERAL INFORMATION**

1.1 **Goal**

- A. It is the goal of the California Department of Alcohol and Drug Programs (ADP) to provide Technical Assistance (TA) and training to local and statewide Alcohol and other Drug Program (AOD) organizations. The focus is on reducing barriers and assuring the quality of, AOD prevention, treatment, and recovery program services offered to California's Pregnant Women, Parenting Women and Their Children and all Other Women.
- B. ADP seeks to improve access, quality, and appropriateness of AOD prevention, treatment, and recovery services to all women and their children. To accomplish these objectives, ADP will contract with an organization, through its proposal, which demonstrates the necessary high level of skills, abilities, and knowledge. Contractor shall provide a broad scope of AOD TA and training to ADP and local and statewide organizations, which provide prevention, treatment, and recovery services.

1.2 **Background**

- A. AOD use among women adversely affects them and their children's lives. To reduce these effects, the State Legislature created the Office of Perinatal Substance Abuse (OPSA) within ADP in the early 1990's. A statewide strategy for substance-abusing pregnant and parenting women was then developed and gender-specific, culturally relevant AOD treatment programs were piloted in several counties. Treatment services expanded statewide, in 57 of California's 58 counties. In May 2007, the Director of ADP expanded OPSA with the establishment of the Office of Women's and Perinatal Services (OWPS), as "the beginning of many enhancements to improve AOD services for women of all ages, their children, and their families". OWPS oversees a statewide network of approximately 300 publicly-funded perinatal AOD treatment programs that annually serve over 38,000 pregnant and parenting women. For several years, ADP has provided TA and training to the Perinatal Services Network (PSN) to meet the specific treatment and recovery needs of all women and their children. ADP seeks to improve accessibility to, and quality of, appropriate AOD treatment and recovery program services for this population.
- B. Perinatal and other women's treatment and recovery programs were developed on the premise that services for women are more effective, if the programs reflect the experiences of women in society and women's needs for specific services based on gender. Some of these issues and concerns include: gender specific, trauma-informed services; services for their children; parenting skills; health matters; legal issues; housing availability; employment; and access to other social services.

- C. California's population is diverse and consists of groups of people with unique cultural values and languages. Many barriers to prevention, treatment, and recovery services exist due to these differences.
- D. Examples of barriers include funding, community resistance, geographic isolation, transportation difficulties, childcare, educational services, and linkages to other appropriate services. ADP seeks to design and improve systems to eliminate these barriers.

1.3 **Substance Abuse**

Despite the gains of the past three (3) decades, women remain underrepresented in substance abuse treatment. Over the course of a lifetime, men with substance use disorders are more likely to receive specialized addiction treatment than women. Women are less likely than men to enter any type of treatment. If they do receive treatment, women are less likely than men to be treated in specialized substance abuse programs. According to the United States Department of Health and Human Services Substance Abuse and Mental Health Services Administration (SAMHSA), and a study conducted by the California's Women, Children and Families, the prevalence of substance use and the need for treatment among California women are:

A. **California Women, 2005**

1. More than two million women reported recent binge alcohol use.
2. Almost one million women reported recent illicit drug use.
3. 952,000 women would have benefited from but did not receive treatment for alcohol problems and 367,000 women would have benefited from but did not receive treatment for illicit drugs.
4. 63,000 women were admitted to treatment.

B. **Pregnant Women in California, 2005**

1. An estimated 100,000 infants are born prenatally exposed to alcohol each year, and an estimated 20,000 to 60,000 are born prenatally exposed to illicit drugs.
2. Fewer than 4,000 pregnant women entered treatment in California in 2005.

C. **California Parents, 2005**

1. Nationally, among parents living with their children, eight percent of fathers and four percent of mothers were dependent on or abused substances in the past year.

2. An estimated 849,000 California children live with a parent who abuses or is dependent on alcohol or illicit drugs.
3. Approximately 103,000 parents were admitted to treatment.

1.4 **Barriers**

Barriers may begin with impediments that prevent the correct identification and diagnosis of substance abuse disorders in women. Women who do realize they need help to overcome their substance use problems often face other barriers to treatment. Even following admission to treatment, women are confronted with barriers, making it difficult to engage and remain in treatment.

A. **Internal Treatment Barriers for Women**

1. Low motivation – One of the biggest obstacles for women is low motivation. Even the potential loss of children to state custody or the possibility of being reunited with children often is not sufficient to motivate women to engage in substance abuse treatment.
2. Denial - A major internal barrier that lowers motivation for treatment.
3. Beliefs about treatment – Due to mistaken perceptions about treatment options.
4. Psychological problems – Women are more likely than men to have higher rates of psychological conditions, such as depression and anxiety.
5. Shame – Society has more negative attitudes toward female substance abusers than toward men and women often internalize these negative attitudes.

B. **Social Barriers for Women**

1. Social support – Substance-abusing women often reside in families and communities that are unable to provide the support they need to access and engage in substance abuse treatment.
2. Referral patterns – Women are less likely to correctly be identified with substance abuse and may be misdiagnosed as having psychological problems.
3. Parenting – Stigma increases for pregnant and parenting women, resulting in increased barriers to treatment. These obstacles include difficulties providing child care, as well as concerns about losing custody of children.

Treatment availability – Education level and employment prohibit many women from affordability of treatment unless they seek public-funded programs.

4. Treatment accessibility – Programs not located near public transportation are less accessible to substance abusing woman.
5. Child-related needs and pregnancy – Such as daycare for children and prenatal care.
6. Lack of therapeutic relationship.
7. Lack of trauma-informed and gender responsive treatment

B. Federal Funds

(Applies to contracts funded in whole or part by federal funds)

The contract may also be amended to reflect a reduction in funding.

2.9 **Budget Contingency Clause**

- A. It is mutually agreed that if the Budget Act of the current fiscal year and/or any subsequent fiscal years covered under this Agreement does not appropriate sufficient funds for the program, this Agreement shall be of no further force and effect. - 6.4 Proposals that contain false or misleading statements or which provide references, which do not support an attribute or condition claimed by the bidder, may be rejected. If, in the opinion of ADP, such information was intended to mislead ADP in its evaluation of the proposal and the attribute, condition or capability is a requirement of the RFP, it will be the basis for rejection of the proposal.
- 6.5 All proposals meeting the format requirements and passing the Technical Proposal by 151 points or more shall then have their Cost Proposal score determined. Cost Proposal scores will be determined as stated in RFP Section 3.2.
- 6.6 The Technical Proposal score will then be added to the Cost Proposal score to determine the overall score. Calculations up to the nearest tenth of a decimal point will be used. The bidder with the highest overall score will be awarded the contract.

 - (7) Medications are an important element of treatment for many patients, especially when combined with counseling and other behavioral therapies.
 - (8) Addicted or drug-abusing individuals with coexisting mental disorders should have both disorders treated in an integrated way.
 - (9) Medical detoxification is only the first stage of addiction treatment and by itself does little to change long-term drug use.
 - (10) Treatment does not need to be voluntary to be effective.
 - (11) Possible drug use during treatment must be monitored continuously.
 - (12) Treatment programs should provide assessment for HIV/AIDS, Hepatitis B and C, tuberculosis and other infectious diseases, and counseling to help patients modify or change behaviors that place themselves or others at risk of infection.

CONTRACT**

E. Subcontractor Data. Whenever any Subject Data is to be obtained from a subcontractor under this contract, the Contractor shall use sections A, B, C, and D of this clause in the subcontract, without alteration and no other clause shall be used to enlarge or diminish the federal government's; or State's rights in that subcontractor Subject Data.

12. **Contract Product Rights and Licenses**

Contractor shall use its best efforts to secure all rights and licenses necessary for the creation, production or development of the products executed under this contract.

13. **Prior Approval of Training Events/Conferences**

Contractor will be required to obtain prior ADP approval of the locations, costs, dates, agenda, instructors, instructional materials, and attendees at any reimbursable training event, seminar, workshop, or conference and for any reimbursable publicity or educational materials to be made available for distribution. The Contractor shall acknowledge the support of the State whenever publicizing the work under the contract in any media. This requirement does not apply to necessary staff meetings to conduct routine business matters.

14. **Confidentiality of Information**

In performing work under this contract, contractor shall take reasonable precautions to protect the confidentiality, integrity, and availability of State information assets (defined in SAM 4840.4). Contractor agrees to promptly report to the Department Information Security Officer or Chief Information Officer any significant information security vulnerability, threat or breach known or suspected by the contractor to exist.

15. **Editorial Guidelines**

A. Contractor shall use its best efforts to use the following guidelines when writing or speaking about alcohol and other drugs:

B. "Alcohol and other drugs" is the preferred expression when writing or speaking about drugs, including alcohol. In referring to problems associated exclusively with alcohol, there is no need to use the expanded expression.

C. "AOD" is an abbreviation that may be used in place of "alcohol and other drugs." It should be defined at first mention in each chapter or section. It is better used as a modifier (e.g., "AOD use/abuse") than as a noun (e.g., "the use of alcohol and other drugs"). The judicious use of the term AOD is helpful where it aids conciseness and clarity and should not be employed as a wholesale replacement for the complete expression.

**ATTACHMENT II
CONTRACT**

- D. "AOD use (or abuse) prevention," "AOD problem prevention," or preventing alcohol and other problems" (or, as appropriate, "use," "misuse" or "abuse") are preferable expressions rather than "AOD prevention." Alcohol and other drugs cannot be prevented; only their use, misuse, or abuse can be prevented.
- E. Illegal vs. Illicit: Drugs themselves are either illicit or licit; their use can be either illegal or legal. For example, the purchase or public possession of alcohol, licit drug, is illegal for underage youth.
- F. War metaphors such as "war on drugs" are generally not appropriate in prevention message. The various aspects of prevention can be communicated effectively without using military language, which is offensive to many cultures and individuals, and may imply that prevention can be accomplished just by eliminating the drug supply from our Nation.
- G. The term "use" should be employed when making statements about people who should not drink alcohol: youth, pregnant women, recovering alcoholics or operators of motor vehicles or other machinery. Otherwise, the terms "misuse" and "abuse" are more appropriate. Concerning illicit drugs, the term "use" may connote less of a judgment than the term "abuse," which may imply that "use" is permissible but "abuse" (undefined) is not. Controversy surrounds this issue but efforts should be made to be clear about intended meaning.
- H. Because a person does not have to be drunk to be impaired, the term "alcohol-impaired driving" or "drinking and driving" is preferable to "drunk driving." When writing about vehicle collisions associated with alcohol and other drug use, use "crashes," "injuries" or "incidents." "Accident" suggests that the event was random, inevitable, and therefore could not have been avoided.
- I. Use "safety belt" instead of "seat belt" to emphasize the protective benefits of this device.
- J. Whenever possible, attempt to be specific regarding the alcoholic beverage under discussion rather than using the general terms "liquor" or "spirits."
- K. "Alcohol and other drug use" or "abuse" is preferable over "substance abuse" or "substance use."
- L. Avoid the generic use of the terms "chemical use" and "chemical abuse" unless referring directly to chemically produced drugs.
- M. Avoid using the term "hard" or "soft" drugs because these terms imply that some drugs, such as marijuana, are virtually harmless.
- N. Use "injected drugs" or "injectable drugs" rather than the term "IV drugs" or "IV use."

**ATTACHMENT II
CONTRACT**

- O. Avoid the term “recreational use of drugs,” which trivializes drug-taking behavior.
- P. Use “mind-altering drugs” rather than “mood -altering drugs” because the latter does not reflect the potentially powerful physiological effects of alcohol and other drugs.
- Q. Use “crack cocaine” instead of “crack” because crack cocaine is a derivative of cocaine.
- R. Avoid phrases such as “getting high,” “tripping out” or “hooked.” These slang expressions trivialize the effects of alcohol and other drug use.
- S. Avoid using derogatory terms such as “drunks,” “potheads,” “dope fiends” or “drug addicts.” These expressions show a lack of respect for individuals with alcohol and other drug problems.
- T. Use “spitting tobacco” instead of “smokeless tobacco” or “chewing tobacco” to deglamorize the product and to place emphases on the mouth and throat areas, where medical problems associated with these products can occur.
- U. Use “housing development” instead of “housing project,” “slum” or slum dwelling.”

Non-DVBE: Commit to use DVBEs for not less than three percent (3%) of the dollar amount of the bid.

3. CONTRACT GOAL OR GOOD FAITH EFFORT

In order to be “responsive” to this requirement, the bidder must:

Use three percent (3%) or more of proposed bid amount to reimburse DVBEs to perform contract services. Complete Exhibit A of this Attachment.

OR

Make a “good faith effort” to find DVBEs to perform proposed contract services by doing all of the steps outlined in Exhibit B of this Attachment.

**SMALL BUSINESS
TARGET AREA CONTRACT PREFERENCE ACT (TACPA)
ENTERPRISE ZONE ACT (EZA)
LOCAL AGENCY MILITARY BASE RECOVERY ACT (LAMBRA)**

The following are the procedures for bidders to follow if they wish to apply for five percent (5%) Small Business preference; TACPA, EZA or LAMBRA preferences of five percent (5%) each plus up to four percent (4%) workforce preferences each.

A. SMALL BUSINESS PREFERENCE

1. Section 14835, et seq., of the California Government Code requires that a five percent (5%) preference be given to bidders who qualify as a Small Business or to non-small businesses claiming twenty-five percent (25%) California certified Small Business subcontractor participation. If claiming the non-small business subcontractor preference, the bid response must include a list of the Small Business(es) with which you commit to subcontract in an amount of at least twenty-five percent (25%) of the net bid price with one or more California certified Small Businesses. Each listed certified Small Business must perform a “commercially useful function” in the performance of the contract as defined in Government Code Section 14837(d)(4).
2. The required list of California certified small business subcontractors must be attached to the bid response and must include the following:
 - a. Subcontractor name
 - b. Address
 - c. Phone number
 - d. Description of the work to be performed and/or products supplied
 - e. The dollar amount or percentage of the net bid price (as specified in the solicitation) per subcontractor.
3. In addition to the list, bidders must identify Small Business subcontractors on their Project Budget. The rules and regulations of this law, including the definition of Small Business for the delivery of services, are contained in Title 2, California administrative Code, Section 1896 et seq. A copy of the regulations is available upon request. To claim the Small Business preference, which may not exceed \$50,000 for any bid, your or the subcontractor firm must have its principal place of business located in California and be certified by the State Office of Small Business Certification and Resources. Questions regarding the preference approval should be directed to that office at (916) 375-4940.

**ATTACHMENT VII
STATE ECONOMIC DEVELOPMENT INCENTIVE PROGRAMS**

If you are claiming Small Business preference please complete the following Small Business information on you or your subcontractor(s) and return with your proposal:

- a. Bidder's Small Business Number:_____ or date applied for Certification:
- b. Subcontractor Small Business Number:_____ or date applied for Certification:

B. TACPA/EZA/LAMBRA PREFERENCES

1. (Applies when the bidder is able to pick the work site where services will be provided. Providing technical assistance statewide on an as needed basis does not qualify.)
2. Under the provisions of the TACPA, Government Code Section 4530 et seq., EZA, Government Code Section 7070 et seq., and LAMBRA, Government Code 7118 et seq., preferences are available to California-based companies that demonstrate and certify, under penalty of perjury, that at least 50 percent (50%) of the total labor hours for manufactured goods, or 90 percent (90%) of the total labor hours for services (100% in the case of LAMBRA) will be performed in distressed areas. The Acts also makes available additional preferences to California based bidders who certify, under penalty of perjury, to hire persons in targeted employment areas.
3. Bidders are not required to apply for TACPA/EZA/LAMBRA preferences, and denial of preference requests is not a basis for rejection of the bid.
4. If bidders wish to be considered for the preferences, they must demonstrate and certify that they will comply with the requirements of these Acts. Bidders must complete and submit the applicable forms listed below. The information provided must demonstrate that the bidder has the ability to comply with the terms and provisions of the preference programs. The State, as part of its evaluation process, reserves the right to verify, validate, and clarify all information contained in the bid. This may include but is not limited to information from bidders, manufactures, subcontractors, and any other sources available at the time of bid evaluation. Refusal to agree to and/or comply with these terms or failure to provide additional supporting information at the State's request may result in denial of the preferences requested.
5. Bidders applying for preference(s) must submit the following form(s):
 - a. TACPA – STD 830 <http://www.documents.dgs.ca.gov/osp/pdf/std830.pdf>
 - b. EZA – STD 831 <http://www.documents.dgs.ca.gov/osp/pdf/std831.pdf>
 - c. LAMBRA – STD 832 <http://www.documents.dgs.ca.gov/osp/pdf/std832.pdf>

**ATTACHMENT VII
STATE ECONOMIC DEVELOPMENT INCENTIVE PROGRAMS**

C. SCORING PREFERENCES

1. The preference(s) will be based on the score of the bidder with the highest score that is not applying for the preference(s).
2. Example: The score of the highest scored proposal (that is not applying for a preference) is 180 points. This score amount would be multiplied by a preference (for example 5%) to determine additional preference points. ($5\% \times 180 = 9$ points). All bids applying and qualifying for the preference would have these additional preference points (in this case, 9 points) added to their score.
