

**Department of Alcohol and Drug Programs
Drug Medi-Cal Program Aid Codes Master Chart
November 17, 2009**

Overview

The following chart organizes Medi-Cal aid codes into the following five groups based on the percent of federal financial participation (FFP) for which the aid codes are eligible:

- Refugee (100 Percent FFP)
- Title XXI of the Social Security Act (Enhanced FFP)
- Breast and Cervical Cancer Treatment Program (BCCTP) Aid Codes (Regular FFP)
- All other aid codes (Regular FFP)
- State Funds Only (Zero FFP)

Within these groups, the program/description column identifies aid codes that have restrictions on the services for which FFP is available. These aid codes are also identified by color coding and font/italics/underlining (see footnotes).

Although certain aid codes are eligible for 100 percent or Enhanced FFP, the Department of Alcohol and Drug Programs (ADP) current policy is to process claims involving these aid codes using Regular FFP (except Minor Consent claims is processed using 100 percent State General Fund). Historically, the volume of claims submitted using Enhanced FFP or 100 percent FFP was comparatively small so that it did not warrant the separation and manual processing of these claims from those processed using Regular FFP.

The Early and Periodic Screening, Diagnosis, and Treatment (EPSDT) column identifies aid codes that may include beneficiaries under age 21 who are eligible for expanded Medi-Cal benefits under the EPSDT program.

When selecting from multiple aid codes in the Medi-Cal Eligibility Determination System (MEDS), the Short Doyle/Medi-Cal claiming system (SD/MC) system pays a claim using the first aid code with FFP in the following order: Primary, Special 1, 2, and 3. If the claim is billed and payable with 7X, 8P, 8R, 8T, or 8X aid code, the claim will be paid at Regular FFP by ADP, even though it is listed as an Enhanced FFP Aid Code.

As of July 1, 2002, aid codes 8T, 44, 48, 55, 58, 69, and 7C are payable by the SD/MC system. These codes were previously locked out of the system, primarily because there are restrictions on the services covered by the aid code. For example, aid codes 8T, 55, and 58 identify beneficiaries who are only eligible for emergency services (emergency psychiatric inpatient hospital services and the related professional services) or pregnancy-related services (specialty mental health services required to ensure the health of the mother and child, generally up to delivery). While these aid codes are still restricted, they are now billable for services provided to beneficiaries in these code categories. Check the program description column for more information.

If a service is not covered under the aid code, the services will not be reimbursed by SD/MC.

These aid codes are billable for dates of service on or after July 1, 2002.

Special Indicators

The following indicators, which appear in the aid code portion of the county ID number, help Medi-Cal identify the following:

IE – Ineligible: A person who is ineligible for Medi-Cal benefits. An IE person may only use medical expenses to meet the share of cost (SOC) for other family members associated within the same case. Upon certification of the SOC, the IE individual is not eligible for Medi-Cal benefits in this case. An IE person may be eligible for Medi-Cal benefits in another case where the person is not identified as IE.

RR – Responsible Relative: An RR is allowed to use medical expenses to meet the SOC for other family members for whom he/she is responsible. Upon certification of the SOC, an RR individual is not eligible for Medi-Cal benefits in this Medi-Cal Budget Unit (MBU). The individual may be eligible for Medi-Cal benefits in another MBU where the person is not identified as an RR.
